SINOGRACE

The Chemical Company

Tackifier emulsion for water-based glue

TK series

The tackifier emulsion provided by Sinograce Chemical has a very narrow particle size distribution interval and a small average particle size, low foam, excellent storage and mechanical stability. It is used to improve the initial adhesion / peel strength, holding power properties of water-based glue/adhesive

DESCRIPTION

TYPE

Water-based tackifier emulsion

KEY

- Non-toxic, eco-friendly, easily dispersed
- Small particle size, good mechanical stability
- Low surface tension, low foam, coating uniformity

FEATURES

- Good compatibility: can significantly improve the adhesive products and achieve the best balance point
