

Thickener

TH-60 High concentration printing thickener

DESCRIPTION TH-60 is developed for thickening pigment printing on cotton as well as synthetic textiles. Very quick thickening effect and high electrolyte stability in pigment printing system.

TYPE Anionic inverse polyacrylate emulsion

- KEY FEATURES**
- APEO and formaldehyde free
 - Very quick thickening effect
 - Very good color acceptance on tinting
 - High electrolyte stability in pigment printing system
 - High concentration anionic inverse polyacrylate emulsion
 - Suitable for thickening pigment printing on cotton as well as synthetic textiles

TYPICAL PROPERTIES	Appearance	White liquid
	Solid content (%)	60 ± 1%
PROPERTIES	Density (g/cm³)	1.12
	pH (1% in dist. water)	6-8

APPLICATION

- Pigment printing
- Textile printing etc.

Recommended dosage: 0.5-3% based on the weight of the formulation

- STORAGE AND HANDLING**
- Available in 25 kg/barrel or 200kg/barrel
 - Store products in tightly closed original containers at 5-40°C
 - Shelf life: 12 months from delivery date
 - According to non-dangerous goods transport
