

Nano Coatings

PF-306 Car body and glass hydrophobic nano coating

DESCRIPTION PF-306 is water based fast-dry self-cleaning nano coating for car body etc. Easy to use and long duration.

TYPE Car self-cleaning nano coating

- KEY FEATURES**
- Non-toxic
 - Easy to use
 - No effect on the car paint gloss
 - Self-cleaning and super hydrophobic
 - Liquidproof, anti-UV and long duration

TYPICAL PROPERTIES	Appearance	White milky liquid
	Water contact angle (°)	110
	pH	6.0-7.0
	Density (g/cm³ at 20°C)	1.01 ±0.03
	Duration (months)	1-2
	Cover area (m²/L)	20-25
	Dilute ratio (water)	1:10

- Car body. Car glass

Dilute the PF-306 by mixing with water (1 part PF-306 to 100 parts water)

The preparation of solution:

Firstly, add the quantitative PF-306 into a container, and then the quantitative water is added into. Finally, stir the solution at a low speed until uniformity.

APPLICATION

Surface Preparation: Substrate surface must be completely free of all contaminants. Surface can wet or dry before coating.

Consumer: Drop or spray the liquid on the surface and evenly wipe the surface by sponge, and then clean with water.

Dry with a towel or dry naturally

Eco-Friendly

Non-Toxic

STORAGE

AND

HANDLING

- Available in 5L/bottle, 25L/barrel or customized package
- Store products in tightly closed original containers at 5-35°C
- Shelf life: 12-15 months from delivery date
- According to non-dangerous goods transport
